¹ IPEDS Cohort Definition: First-time, full-time, degree-seeking traditional undergraduates including athletic coding.

Coding is used to identify the initial athletic cohort but is not included in persistence logic past the entering term.

This cohort is tracked to each subsequent fall semester (fall₂, fall₃ & fall₄) using registered hours to identify whether the student returned to the university.

Percent Return uses Cohort Athlete counts for the entering term as the denominator. Student did not necessarily returning as an athlete.

Includes all students (with and without aid)
